Wheat Rallies Sharply and Starts Well on Heavy Seaboard Acceptances.

DECEMBER CENT AND AN EIGHTH HIGHER

Dats, Corn and Provisions Follow Wheat Very Slowly, but All Generally Show Upward Tendency.

CHICAGO, Oct. 10 .- The appearance of war news from abroad today, together with heavy acceptances at the seaboard, caused a sharp rally in wheat. December closed 1911-8c higher. Corn gained 4c. Oats advanced 4493-8c. Pork left off unchanged to 25% higher, lard unchanged

and ribs unchanged to 25c up. Wheat operations before business started here showed an advance of 1\401\2d over Saturday's close on fears as to the controversy with France over the Nile ter-ritory. That advanced values here shortly after and traders were stimulated into unusual activity. Additional impetus was given the market by the fact that shipments from Russia last week showed a failing off some 600,000 bu., as compared those of the preceding week, and with those of the preceding week, and because of heavy cable acceptance of wheat offers made over Sunday by exporters. To further add to the discomfort of those who went short from last week, there were "pointers" in circulation that the government crop report would make a very buillish showing in wheat tion that the government crop report would make a very bullish showing in wheat. The combination was sufficient to cause general covering by shorts of almost every sort. Meanwhile the early bearish news was entirely disregarded. The Michigan authorities estimated the total yield of that state as the largest ever known there. New South Wales placed its exportable surplus greater than is usually reported for all of Australia, and it was also reported that the foreigners were reselling wheat on account of the sharp advance in prices. In consequence of this the market did not fully maintain its early figures, nevertheless the trade was not disposed to hammer prices, as the liberal rains in the northwest promised to cut off receipts to some extent. Another factor that dishammer prices, as the liberal rains in the northwest promised to cut off receipts to some extent. Another factor that discouraged any heavy selling was the visible supply, which showed an increase of 1,500,000 bu, where an increase of 1,500,000 bu, had been expected. Chicago received 497 cars, against 305 last year, and Minneapolis and Duiuth receipts were 1,502 cars, compared with 2,448 last week and 1,407 a year ago. Primary market receipts were 2,151,000 bu, against 2,847,000 bu, the week previous. Reports from the peaboard that the export engagements aggregated 105 boatloads and the sale of 200,000 bu. No. 2 spring and No. 2 hard winter wheat here for Liverpool caused a very strong tone during the closing hour. December opened 7-801-8c higher at 633-80 635-7c, rose to 64c, sold off to 633-80 635-7c, then recovered to 633,0037-8c at the close.

Corn started strong with wheat, but there was considerable opposition from the receivers, who sold with some freedom. The liberal loans in a good portion of the corn belt were relied upon to cut down the receipts and elevator interests generally brought on the belief that the government report would be a bullish one. The volume of business was ahead of any recent day and as the market opened away above calls, there was a natural desire on the part of the sellers of these privileges to stop losses. December started and sellers of these privileges to stop losses. December started and advanced to 297-8c buyers at the close. Corn started strong with wheat, bu

29%c, and advanced to 297-8c buyers at the close.

Oats followed corn. Receipts were 687 wars. May began 423-8c up at 227-8c to 23c. sold off to 22%c, then improved to 227-8c m23c, sold off to 22%c, then improved to 227-8c m23c, the closing figure. The strength in grains, together with a light run of hogs at higher prices, started provisions strong. Disquieting yellow fever runnors caused a very unsettled feeling and the advance was solzed upon by leading packers of considerable product. The trade was not broad enough, however, to absorb the offerings and values quickly slumped off. Scalping shorts who rather overdid the selling after they discovered the source of the heavy liquidation early ran the price up at the close in an attempt to cover. Their purchases brought the market up to very nearly the opening figures. January pork opened 507%c higher at \$8.90, declined to \$8.75 and railled to \$8.85 at the close. January lard began 24c up at \$4.82%, sold off to \$4.75, then recovered to \$4.80, the closing figure. Estimated receipts tomorrow: Wheat, 270 cars; corn, \$15 cars; oats, 430 cars; hogs, \$2,000 head.

Room Traders Turn Bears Again and Sell Through the Whole List. NEW YORK, Oct. 10.—The room traders on the Stock exchange turned bears again today and sold stocks all through the list, Outside of a few cases they did not meet with much success in securing a following. but in a number of high priced specialties

with much success in securing a following, but in a number of high priced specialities and, later in the day, in some of the railroads the declining market did induce some liquidation.

This was notably the case in Northern Pacific, which went in the last hour to 33.8, a loss of 1½ per cent, and closed heavy in tone. Offerings of this stock were very large and the price movement revived rumors of irreconcilable differences between the two powerful financial interests in the property. The large German holding of this stock made it peculiarly susceptible to the effects of money stringency in Berlin, indicated in the rise in the Imperial bank rate today to 5 per cent. The same factor affected other railroad stocks also. In fact, the influence of all foreign markets was on the side of the bears.

The relations between Great Britain and France disclosed by the publication of the Fashoda Blue Book caused sufficient apprehension to produce a decline of 3-8 per cent in British consols and to unsettle all the European markets. The continued uneasiness in France over domestic politics and the possibility of the failure of the peace commission to agree upon terms were also upon the side of the bears.

There was some alarm over the spread of yellow fever in the south, in which Illinois Central was the most severe sufferer, losing 1½ per cent. Losses on the grangers reached a point, except on St. Paul, which resisted the decline. The principal activity on the market, however, continued to center in the industrial group, and Sugar fell to 110 with no visible support. The offerings on the decline were very large. People's Gas, Rubber, Leather preferred, Manhattan, Metropolitan Street Railway and New grangers on the decline were very large. Solve and the or another during the day to the extent of from 1 to 7½ points. Tobacco was a prominent feature, but ruled above Saturday's level the greater part of the day on the acquisition of a large plug tobacco interest. The price advanced from 1 to reason the decline to the resist of t urday's level the greater part of the day on the acquisition of a large plug tobacco interest. The price advanced from 1 to over 3 points, but the stock closed unchanged. Lake Erie & Western, common and preferred, fell at one time 3½ and 10½ per cent, respectively. The preferred rallied nearly 3 points. There was no news to account for the decline. A loss of 3 points in Oregon Navigation preferred was also explained. There was no reflection in the stock market of the active foreign demand for wheat for export or evidences of the expanding business of the country in the increased demands from the west for money. The transfers of currency at the subtreasury for shipment to the west

increased demands from the west for money. The transfers of currency at the subtreasury for shipment to the west amounted to \$810,000. Conditions in the money market continued easy.

Bonds weakened late in the day in sympathy with stocks, Wisconsin Central firsts losing an extreme 2½ per cent and Oregon Short Line 1½ per cent. Total sales, \$2,450,000. United States old 4s, coupon, and 5s advanced ¼ per cent and the new 4s, registered, and the 4s, coupon, 1-8 per cent in the bld price.

The Evening Post's London financial cablegram says: The stock markets here opened flat today on the Fashoda dispute and the rise in the German bank rate, but closed better generally on favorable advices from Paris. Kaffirs were especially strong on the announcement of a favorable report of crushing by the Pioneer mine in the Rhodesia district. The only effect on the German bourse of the rise of the bank notes was to cause a desire to sell German consols and other country investment stocks on this market. Selling from Berlin of Americans has quite ceased

to seil German consols and other country investment stocks on this market. Selling from Berlin of Americans has quite ceased for the moment. Nevertheless Americans were duil, closing near the lowest in the absence of New York support. New York and Berlin are competing for gold here at 77s 11½d. It is believed here that the worst of the financial strain at Berlin is over. The London short rate for money rose to 3 per cent, subject to a possible advance in the Bank of England rate on Thursday.

Thursday.

notes in circulation, increase, 22,598,000 pesetas.

New York Dry Goods Market.

NEW YORK, Oct. 10.—There was more activity in some lines of dry goods today than has been the case for some weeks. The cooler weather brought many buyers to the city from nearby points. Most of this trade went to the jobbing houses, but sellers at first hands noted slight improvement on many lines of cotton goods. Sellers of woolens and worsteds have ceased to look for any radical improvement in the market, and are content to accept whatever re-order business was forthcoming. The manufacturers of clothing are the chief reliance of the woolen men at present. Even their dealings have been on a conservative basis. Print cloth bids for sixty-four squares at the new price of 115-16c are by no means numerous. Odds are also quiet. Staple cottons were slightly improved in some lines today. The gain was notleeable more particularly in bleached goods. It was not heavy enough to have particularly lasting effect on the market. New York Dry Goods Market.

OIL CITY, Pa., Oct. 16.—There were sales of 3,000 bbls. cash certificate oil at \$1.11 and the market closed firm at that figure. There was one bid of 1½c for regular; credit balances were unchanged; runs, 83,161 bbls.; shipments, 162,470 bbls.; buckeye runs, 50,561 bbls.; buckeye shipments, 197,921 bbls. SAVANNAH, Oct. 10.—OIL—Turpentine, firm at 28½c. Rosin, firm and unchanged. WILMINGTON, N. C., Oct. 10.—OIL—Turpentine, firm at 28½c. Rosin, nothing doing, Crude turpentine, firm at \$1.15@1.70. Tar, steady at \$1.15. Oil Market.

NEW YORK, Oct. 10 .- COFFEE-Options NEW YORK, Oct. 10.—COFFEE—Options opened steady at unchanged prices to a decline of 5 points; ruled inactive and featureless with a weak undertone under disappointing cables, slack speculation and indifference of spot buyers; closed quiet and unchanged to 5 points lower; sales, 2,500 bags, including March at \$5.89. Snot coffee, Rio, steady; No. 7, invoice, \$3.12½; No. 7, jobbing, \$6.62½. Mild, quiet; Cordova, \$8.00 \$915.00.

Sugar Market. NEW ORLEANS, Oct. 10.—SUGAR—Dull; centrifugal, new off yellow, 44c. MOLASSES—Strong; centrifugal, new, NEW YORK, Oct. 10.—SUGAR—Raw, steady; fair refining, 3 11-16c; centrifugal, 86 test, 4 3-16c; molasses sugar, 3 7-16c. Re-

California Dried Fruits NEW YORK, Oct. 10.—CALIFORNIA DRIED FRUITS—Firm; evaporated apples, common, 668c; prime wire tray, 81c; common, 663c; prime wire tray, 8½c; choice, 9c; fancy, 16c; prunes, 4654c; apri-cots, Royal, 11313c; Moor Park, 12016c; peaches, unpeeled, 739c; peeled, 123124c. Gold Dust from Alaska.

VICTORIA, B C., Oct. 10.—The steamer Amur arrived from Skagway. Alaska, with about 300 pounds of gold dust and a number of passengers from Dawson. Officers of the Amur report that the steamer Al-Ki broke down at Juneau. Her passengers were transferred to the City of Topeka. The sealing schooners Archis, Walter L. Rich and Penelope arrived from Bering sea.

.....5,653 3,206 Totals 3,225 CATTLE—There was a fair run of cattle here today, though considerably smaller than one and two weeks ago, as will be noted from the table of receipts. As was the case all last week, the most of the cat-tle here were grass westerns on the feeder order. order.
There were no cornfed steers in the yards,

There were no cornfed steers in the yards, at least none to amount to anything, and for that reason the market could not be said to have been tested. Desirable cornfed cattle would, in all probability, have brought strong prices. There were only a few western cattle good enough for the killers, and the market on anything on the beef order could be called stronger. Quite a string of the pitchfork brand cattle sold to a packer at \$M\$.

a string of the pitchfork brand cattle sold to a packer at \$4. Regular yard traders cleaned up their holdings of cattle pretty well last week, and the most of them were looking for fresh supplies this morning. At the same time they were all anticipating large receipts for the next two days, and for that reason were not especially strong buyers. Good cattle, which just happened to suit a buyer, and were wanted to fill some special place sold in some cases a little stronger, but the general market on stockers and feeders was inclined to be slow, in fact, common kind were neglected to a considerable degree, and the feeling was rather weak.

There were a good many cows and helfers in the yards this morning, the proportion of that kind of cattle being larger than issual for this market. The result of the large offerings was that buyers held off and the market was very late in opening and when it did open it was slow and weak. Representative sales:

from the table of average prices at head of column that the market is still lower than a week ago by a few cents, and that the hogs sold today at the highest point since Tuesday of last week. It looks now as if the yellow fever reports from Mississlppi might prove an injury to the hog market. Everyone knows that the existence of fever in one southern state, and especially this late in the season, would make no appreciable difference to the sale of hog products, but the sentiment is such on the Chicago Board of Trade that every time there is any fever talk the bears proceed to pound down the market. As a matter of course the price on live hogs follows the lead of provisions. Representative sales:

| Planning to use imported negroes to fill the places of strikers. Manager Lukens, in reply to a question, said he proposed to import labor and would operate his mine if necessary at the point of rifles. Governor Tanner said he would not send troops to assist the operators in running their mines with imported labor, and if the operators attempted to enforce their ideas in regard to the rifles he would send the national guard to Virden to disarm all.

SHEEP—The arrivals of sheep showed up pretty well on paper this morning, but a considerable proportion of the arrivals consisted of feeders and stockers, so that there was no great number of killers on sale. The market, as a whole, was rather slow. Buyers for packing houses did not seem particularly anxious for the kind of stuff on sale, and the trade was inclined to drav. Some sheep sold at stendy prices and at the same time others brought less money than was paid for same kind last week, but they were generally regarded as having brought a high price last week. Taking it all in all the market would have to be quoted simply as slow. There were quite a good many lookers for feeders, and, as usual, with that kind, sellers were enabled to unload at satisfactory prices.

Quotations are: Good grass westerns, \$3.90 (24.00; good yearlings, \$4.20(4.35; good to choice lambs, \$5.15(97.30; fair to good lambs, \$4.90(20.40); feeder wethers, 2-year-olds and over, \$2.75(4.00); feeder wethers, 2-year-olds and over, \$2.75(4.00); feeder yearlings, \$4.00(24.15); feeder lambs, \$4.25(4.85); culls, \$2.50(23.00). JACKSON, Miss., Oct. 10-Six new cases of yellow fever and two deaths were reported in Jackson today. The spread of the dis-ease over the state continues and new fever

cases multiply rapidl. Hattiesburg, in Perry county, is now an infected point, with ten Governor Will Not Help Operators. SPRINGFIELD, Ill., Oct. 10.—Governor Tanner has had a sharp controversy with Manager Lukens of the Chicago-Virden Coal company, in regard to sending troops to

Points from Previous Report-Averages Are Maintained.

WASHINGTON, Oct. 10 .- The Department of Agriculture today issued the following

crop report:
The October report of the statistician of the Department of Agriculture, John Hyde, shows the average condition of corn on October 1 to have been 82 points, as compared with 84.1 points on September 1, with 77.1 points on October 1, 1897, and with 82.9 points, the mean of the October average for the last ten years. All the averages of 100 or upward re-

ported last month have disappeared, except in Kentucky, where corn has held its own at one point above the standard. In Ohio and Missouri also the average is the same as last month, while there is an improvement of 4 points in Illinois and a decline of 4 points in Indiana, 2 points in Iowa and 5 in Nebraska. The usual wheat report is withheld, pending the result of further investigations.

The preliminary estimate of the yield per acre of oats is 27.8 bushels. This is threetenths of a bushel per acre less than the preliminary estimate of the crop of 1897, but 2.7 bushels per acre above the averages of the last ten years. The average for quality is 83.3 against 87.6 one year ago.

The preliminary estimate of the yield per acre of barley is 21.6 bushels, or 2.9 bushels per acre less than in 1897 and 1.3 bushels below the mean October estimates for the last ten years. The average for quality is 91.3 as compared with 87.6 last year. The preliminary estimate of the yield for

an acre of rye is 15.6 bushels. This is fivetenths of a bushel less than the average of last year, but two and nine-tenths of bushel over the mean of October averages for ten years. The average quality reported is 90.1 against 92.7 one year ago.

The condition of buckwheat has declined since September 1 12.6 points, being now 76.2. This is 14.6 points below the average on October 1, 1897, and 8.3 points below the mean of October averages for the last ten The condition of Irish potatoes declined

5.2 points during September. While it is still 1.9 points higher than the October condition last year, it is 2.7 points below the mean of the October averages for the last ten years. The apple reports show a continued decline in every state in which this crop is

of any commercial importance, except in Maine, Michigan, Nebraska and Oregon, where a slight improvement is indicated. The yield per acre of hops is generally in excess of last year. California, where the yield will probably not exceed 1,000 points to the acre, is the exception. The tobacco reports, as a whole, are somewhat less favorable than last month, Penn-

sylvania, Maryland, Virginia and North Carolina showing a decline of 19, 10, 7 and 8 points respectively. Kentucky, however, reports a condition indicating 93 per cent of a full normal crop, an improvement of 4 points during the month, while Tennessee, Wisconsin and New York report 97, 98 and 100 per cent, respectively.

Slot Telephones Illegal.

CHICAGO. Oct. 10.-In an opinion rendered to the judiciary committee of the city council today Corporation Counsel Thornton holds that the slot machine telephone as used by the Chicago Telephone company is illegal. Counsel Thornton contends that the company has no right to charge any extra to an outsider for the use of the telephone when the company is already being paid by the party renting the telephone and leaves it to the option of the latter whether he shall make an extra

charge or not. Police Locate an Heiress. CHICAGO. Oct. 10.—After a search of two ceeks detectives have today located Mamie Norton, for whom \$15,000 in real estate and cash is waiting in Centralia, Kan. A letter received from Miss Norron today estab-lishes her identity beyond a doubt. The icky girl is a stenographer in the offices of Dalton & Salch, manufacturers' agents Denver. Miss Norton formerly lived in Chicago and went to Denver a year ago to live with her mother. Miss Norton was adopted by Frank Norton in infancy and she still bears his name. A relative of the Nortons died in Centralia recently, be-

queathing the fortune to Mamie. Senator Kenney's Case Postponed. WILMINGTON, Del., Oct. 10.—United States District Attorney Vandergriff today made application before Judge Bradford in the United States court for a continuance until after November of the trial of United States Senator Kenney, indicted for com-New York Live Stock.
